How the HuniVerse Marketplace Module Works

The ideal platform to buy and sell online: HuniVerse

The HuniVerse Marketplace: a complete and intelligent marketplace

The **HuniVerse Marketplace** is a core module that enables professional and independent vendors to **post online, manage, and sell their products and services**, while offering customers a smooth experience of **discovery, interaction, ordering, booking, and review**.

It is an **integrated ecosystem**, connected to the following modules:

- **Vendors**
- **Orders**
- **Bookings**
- **Messaging**
- **Reviews**

1. Post online Products

Vendors can post online products through a secure form.

Required information

- Product name and description
- Price
- Category
- Main image
- Optional file (PDF or image)

Security & quality

- Uploaded files are validated (PDF, JPG, PNG only)

- Each product is automatically linked to its owner vendor
- A vendor can manage **only their own publications**

2. Post online Services

Services are managed separately to meet the specific needs of service-based offerings.

Service information

- Title and description
- Price
- Category
- Optional image
- Explanatory document (PDF or image)
- Estimated duration
- Activation status

☐ Services are ideal for:

- Consultations
- Training sessions
- Professional services
- Bookable services

3. Customer Discovery

Customers can:

- Search for products or services using keywords
- View detailed product and service pages
- Access full vendor information

Each product or service page includes:

- Images and documents
- Clear pricing
- Vendor details
- Contact options

4. Customer Interactions and Actions

From a product or service page, a customer can:

- ☐ Add items to cart (**Orders**)
- ☐ Book a service or a product (**Bookings**)
- ☐ Contact the vendor via the integrated messaging system
- ☐ Leave a review after purchase or service completion

☐ Everything happens **without leaving HuniVerse**.

5. Vendor Dashboard

Each vendor has a personal dashboard that allows them to:

- View the number of published products and services
- Add, edit, or delete publications
- Access customer reviews
- Manage their visibility on the platform

6. Subscriptions and Control

To ensure marketplace quality:

- Vendors must have a **complete vendor profile**
- An **active and approved subscription** is required
- Each subscription plan limits the number of allowed publications

The system automatically checks:

- Subscription validity
- Expiration dates
- Allowed publication limits

7. Security and Reliability

- Access protected by authentication

- Strict ownership control of published content
- Full isolation between vendors
- Protection against unauthorized publications

8. A Scalable Marketplace

The HuniVerse Marketplace is designed for:

- International scalability
- Integrated payments
- Advanced analytics
- Strategic partnerships

Summary

The HuniVerse Marketplace is not just a catalog, but a **complete commercial platform**, designed for:

- Vendors
- Customers
- Businesses
- The global digital for now and future

By purchasing products and services online on HuniVerse, customers save time to focus on other activities, while sellers can significantly save the money they would have spent renting spaces in expensive physical locations.

HuniVerse, your universe for buying and selling online.
